

# How Do I Print Wirelessly?

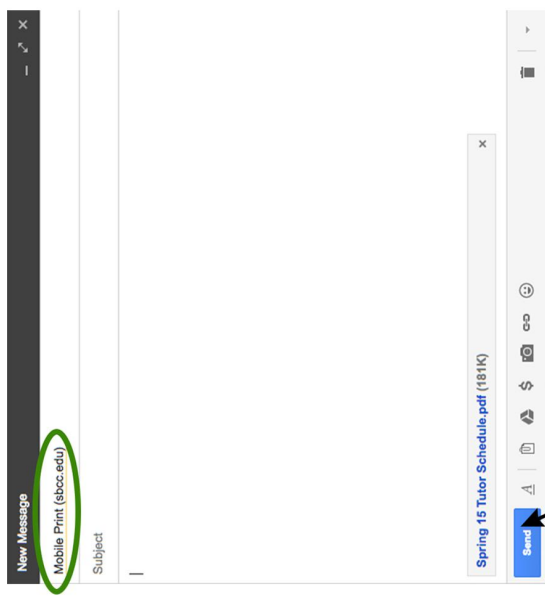

1. You *must* use Google Chrome.

2. Login to your Pipeline and click “Email”. Make sure you’re *only* logged into your Pipeline Gmail, not a different Gmail account.

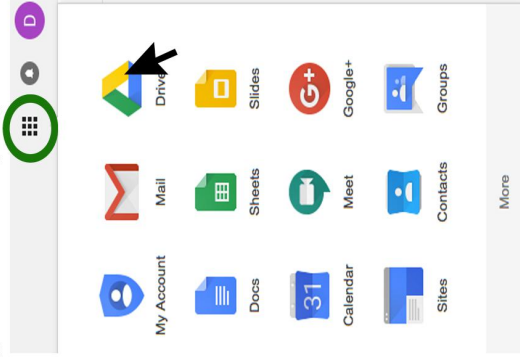

3. Send a PDF attachment from your Pipeline email to [print@sbcc.edu](mailto:print@sbcc.edu). (May take a few moments to show up on the printer screen).

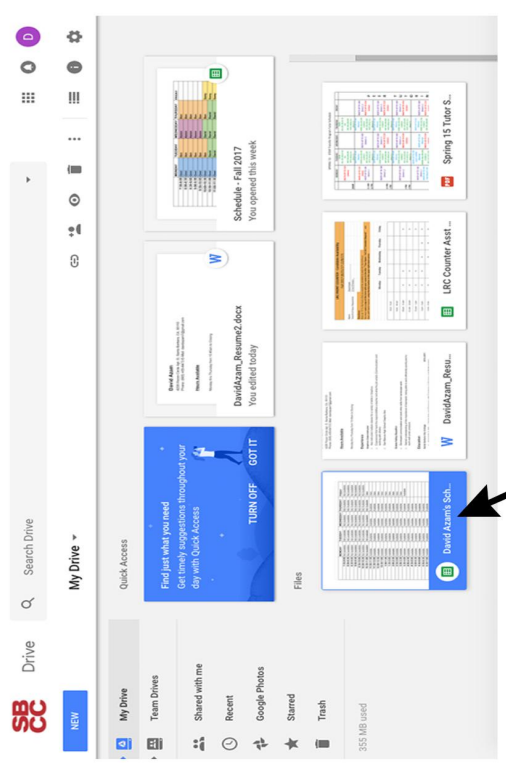

\*If step 3 doesn't work continue here with step 4. Make sure to follow steps 1 and 2 for this process as well.

4. Click on the 9 squares icon in the upper right corner of your email page and click on “Drive”.

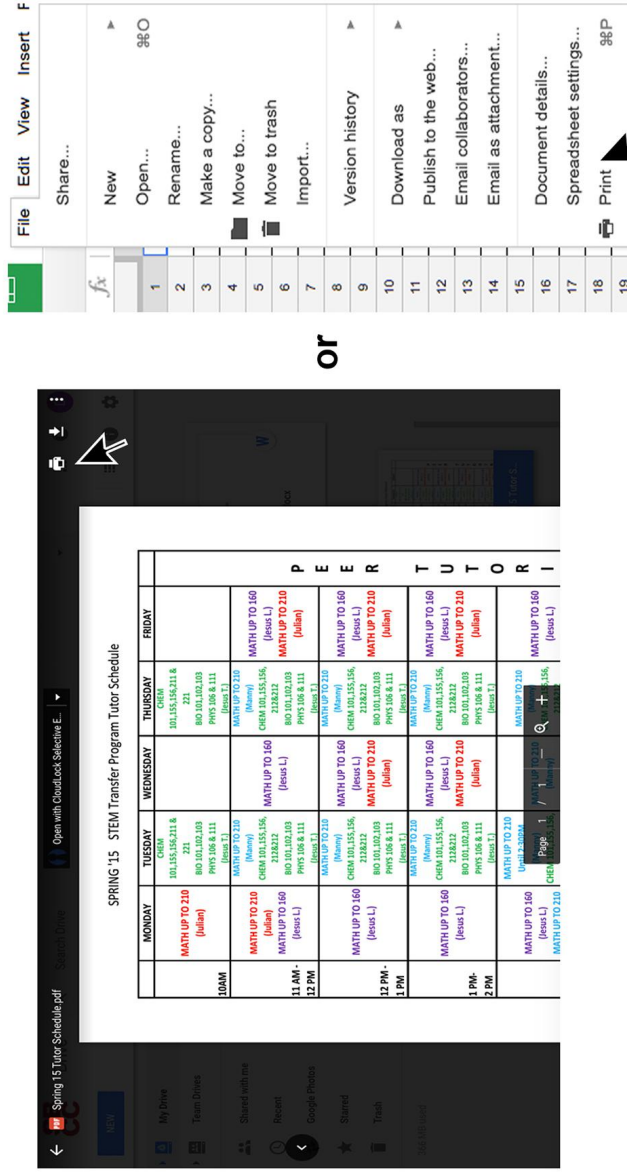

5. Open the file you want to print. Your file *must* be on Google Drive. (Pages files don't work. Convert to a PDF before uploading).

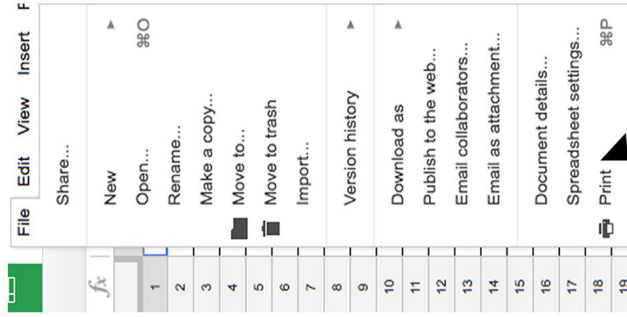

# How Do I Print Wirelessly?

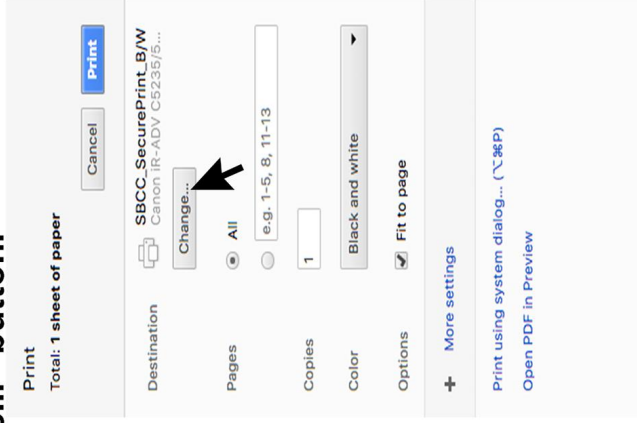

6. Select the printer icon or open the File menu and select "Print".

or

7. Under "Destination" choose the "Change..." button.

8. Select SBCC Cloud Print (do not select this from the "Recent Destinations" menu).

9. Set the options that you want (pages, copies, color, two-sided, etc.) and select the "Print" button.
